

RESIDENT OF THE MONTH

Guess who the resident of the month is?

This sweet and friendly gentleman was born in Monroe, MI. His father worked in Marine Construction and moved his family around; they ultimately ended up in St. Petersburg, FL. He played football and baseball and was offered football scholarships to several universities including University of Florida and Vanderbilt. Unfortunately, he severely injured his knee during a football game his senior year, which ended any dreams he had of playing college or professional ball. After high school he majored in Construction Management at Univ. of FL (Go Gators!) After college he joined the Navy as a Salvage Diving Officer. He would dive into waters to recover and salvage any items from ship and plane wrecks that he could find. He decided not to make a career out of being in the Navy because he didn't want to be separated from his wife and 2 daughters. During his career in Construction Management, he worked all over the country building and renovating everything from dorm rooms to plants to motels. His most memorable and proudest assignment was constructing a La Quinta Inn, which so happened to be built in front of the Home Depot HQ. His wife of 53 years was his high school sweetheart. They met on the beach in St. Petersburg where he was showing off by walking on his hands. Besides his love of construction and the Navy, his interests and hobbies include deep sea fishing, reading nonfictional war books, and stock car racing.
